

SRT Services

What is SRT?

Over half of the adult US population has been affected by one or more of the five Sexually Related Traumas (SRT). Which are:

- Trauma due to Sexual Abuse/Assault
- Trauma due to Past Abortion
- Trauma due to Miscarriage/Stillbirth
- Trauma due to Unwanted Pregnancy
- Trauma due to STDs

These traumas make life much harder than it needs to be.

Why SRT Services?

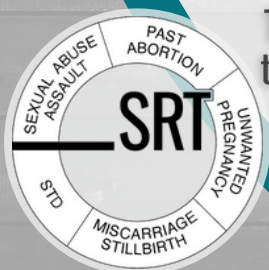

The purpose of SRT Services is to create awareness regarding the emotional harm caused by Sexually Related Trauma (SRT) and to provide a path to healing for those affected.

Our approach

Healing is best done in community. We offer free healing groups for those who have been affected by Sexually Related Trauma (SRT). These free groups are confidential and offer a safe place to share your story. Healing is possible, don't wait!

What's next?

To join a group or become engaged in bringing healing to your community, see opportunities on reverse side.
